

Paul J. Chen

Full Stack Sr. Software Engineer | C# · .NET · React · SQL Server · Azure · AI
Williston Park, NY 11596 • (917) XXX-8697 • pchenatwork@gmail.com • linkedin.com/in/paul-j-chen

PROFESSIONAL SUMMARY

- Full Stack C#/.NET Software Engineer with 25+ years of enterprise application development experience and a Master's degree in Computer Science.
- Proficient in C#, .NET Core/Framework, SQL Server/T-SQL, Oracle PL/SQL, and React/TypeScript/JavaScript (ES6+), with a strong foundation in OOP/OOD design patterns, relational data modeling, and RESTful Web API development.
- Experienced delivering secure, well-engineered solutions across the full SDLC — designing and optimizing complex T-SQL/Oracle stored procedures, implementing Azure AD/OAuth2/JWT authentication, and hardening applications against security vulnerabilities.
- Proven track record collaborating with business stakeholders to elicit requirements and resolve technical issues; comfortable working independently in complex, ambiguous enterprise environments.
- Built and deployed a live Retrieval-Augmented Generation (RAG) GenAI application (C# / .NET Web API backend, React/TypeScript frontend) using Azure OpenAI and Azure AI Search for vector retrieval; proficient with Power BI reporting and AI-assisted development tools (GitHub Copilot, Claude, Cursor).

CORE COMPETENCIES

C# / .NET Core / .NET Framework • SQL Server / T-SQL / Oracle PL/SQL / Stored Procedures • LINQ / Entity Framework / Dapper • OOP / OOD / Design Patterns • RESTful Web APIs • React / TypeScript / JavaScript (ES6+) • Application Security (Azure AD / OAuth2 / JWT / RBAC) • Azure DevOps / Git / GitHub • SCRUM / Agile / DevOps • Unit Testing (xUnit / Jest) • Power BI / SSRS • OpenText eDocs • Data Modeling & Architecture • Generative AI / RAG (Azure OpenAI, Azure AI Search) • AI-assisted development (GitHub Copilot, Claude, Cursor)

PROFESSIONAL EXPERIENCE

Software Engineer

Click It Inc.

Hauppauge, NY | Dec 2025 – Feb 2026

Contributed to modernizing a large-scale Security Surveillance Management System (CMS) serving 7,000+ clients.

- Developed front-end features using React, TypeScript, and Tailwind CSS while migrating legacy ASP.NET WebForms to a modern SPA + RESTful Web API architecture; leveraged AI tools (GitHub Copilot, Claude) to accelerate debugging and improve code quality.
- Wrote complex SQL queries, functions, and stored procedures; designed C# / .NET Core Web APIs supporting high-volume data transactions.

React, TypeScript, Zustand, TanStack Query, Vite, Vitest, Tailwind CSS, C#, .NET Core, Dapper, Web API, SQL Server, GitLab

Senior Software Engineer

Healthcare Partners

Garden City, NY | Sep 2023 – Nov 2025

Full-stack development on Provider Portal — a React/C# web application used by physicians to manage wellness visits, discharge follow-ups, and incentive programs.

- Developed and delivered functional modules from requirements through production deployment, applying OOP/OOD design patterns; performed code reviews and maintained technical documentation to support knowledge sharing.
- Built microservices-based RESTful Web APIs in C# / .NET Core with optimized T-SQL stored procedures and Entity Framework data access layers for high-volume transactions.
- Architected and delivered a serverless Azure pipeline — Azure Functions, Queue Storage, and App Service — for asynchronous file processing and secure SFTP delivery to a third-party vendor.
- Implemented Azure AD-integrated authentication flows; introduced xUnit and Jest unit testing to improve code reliability and coverage across the stack.
- Diagnosed and resolved complex front-end and back-end performance issues; collaborated directly with clinical end users and business stakeholders to clarify requirements and resolve technical issues.

Azure Cloud (Azure AD, Functions, Queue Storage), Git, React / Redux / TypeScript, Webpack, Styled Components, C#, .NET Core, Entity Framework, Web API, SQL Server, Jest, xUnit

Senior / Lead Developer

Evo Payments, Inc. (NYSE: GPN)

Melville, NY | May 2021 – Aug 2023

Spearheaded tech stack upgrades and led technical teams to deliver critical business applications; served as SCRUM Master, Architect, Data Modeler, and Business/System Analyst.

- Designed and delivered a high-volume Web API to generate monthly sales and commission statements for a global payments processor, using SQL Server/T-SQL and SSRS as the rendering engine.
- Built a highly transactional .NET Core MVC/Razor Timesheet Portal for 300+ global IT personnel, tracking capital vs. non-capital spending with complex T-SQL data modeling.
- Implemented OAuth2/JWT SSO via Microsoft Identity Server across multiple internal applications; hardened applications against SQL injection, XSS, CSRF, and RBAC vulnerabilities.
- Served as SCRUM Master, Architect, and Data Modeler; led Agile ceremonies and presented architecture and technical designs to senior management and business stakeholders.

C#, .NET Core, Azure DevOps, ASP.NET MVC / Razor / WebForms, WCF/SOAP, ADO.NET, Kendo UI, SQL Server, SSRS, SSIS

Senior .NET Developer (Contractor)

NYC School Construction Authority

Long Island City, NY | Feb 2015 – Mar 2021

Assumed lead technical role creating and enhancing mission-critical enterprise workflow applications for a large public agency.

- Designed and delivered the Vendor Access System (VAS) — a highly transactional workflow application annually vetting 3,000+ vendor qualifications, certifications, trades, and financials against SQL Server and Oracle backends.
- Built an MVC scheduling tool and lien lookup system using Angular/Telerik UI with Oracle PL/SQL backend; integrated OpenText eDocs for management and indexing of 10,000+ vendor e-documents.
- Developed SSRS and Power BI reports for business stakeholders; migrated authentication to Azure B2C and configured Azure DevOps CI/CD pipelines for automated deployment.

C#, SQL Server, Oracle PL/SQL, ASP.NET Core MVC / WebForms, Entity Framework, Angular, Bootstrap, SSRS / Power BI, OpenText eDocs, Azure DevOps

Application Support Engineer

Montefiore IT

Yonkers, NY | Dec 2013 – Feb 2015

Supported CMO team with ETL development (SSIS), SSRS report design, and maintenance of a Silverlight 4 data monitoring portal.

C#, .NET, SQL Server, SSIS, SSRS, Silverlight

EARLIER CAREER (2000–2013)

Avanade Inc. (NYC) • City of Yonkers (Consultant) • Practising Law Institute (NYC) • Wunderman Advertising (NYC) • Intel (China) Ltd. (Shanghai)

Roles spanning full-stack .NET/ASP.NET development, SSIS/ETL pipelines, Power BI, and enterprise application support across financial services, government, legal, advertising, and technology sectors.

EDUCATION & CERTIFICATIONS

Master of Science, Computer Science — City College of the City University of New York, 1998

Bachelor of Science, Industrial Engineering — Shanghai Jiaotong University, China, 1992

Microsoft Certified Solutions Associate (MCSA): Web Applications — 2016

Microsoft CRM Boot Camp — 2016
